The Cabinet.

Augustus H. Garland.

UNITED STATES SENATOR FROM KANSAS, WHO WILL PROBABLY BE ATTORNEY-GENERAL AT WASHINGTON.

The name of Augustus H. Garland, United States Senator from Arkansas, appears in all, or nearly all, the many "states" which represent the more or less well-known conjectures of editors, as to whom President-elect Cleveland will call to his cabinet. He is a learned, able and powerful man, and the compilation paid him in this virtual unanimity of journalistic judgment regarding him, has been earned by his diligence and the remarkable evidences of statesmanship which he has exhibited in a career comparatively but short.

He was born in Tipton County, Tennessee June 11, 1832. A year afterward his parents removed into the State of Arkansas, of which Mr. Garland has been a resident ever since, with the exception of the time he spent in acquiring an education.

At a suitable age he was removed from the freedom of his father's farm to the restraints of school life. He acquired his academic training at Bardstown, Kentucky, where he was an inmate of Saint Mary's and afterwards Saint Joseph's, two Catholic colleges. There he decided upon becoming a lawyer, and began to read speechless bound books and to follow the proceedings of courts of justice with the view to future appearances in a professional capacity.

He was admitted to practice at Washington, Arkansas, in the year 1853, and immediately opened an office. In 1856 he removed to Little Rock, the capital of the State, where he built upon excellent business as a lawyer.

In 1861 he was a Bell and Everett Elector, and opposed threatened secession as long as there existed the apparent possibility of preventing it. When, however, it became inevitable to went with his State. He was a member of the Convention in Arkansas, which passed the ordinance of secession, and of the Provisional Congress of the Confederacy, which met at Montgomery, Alabama. Subsequently as a member of both houses of the Confederate Congress, he did his utmost to assist the cause which culminated with the surrender of General Lee. In 1865 he petitioned the Supreme Court of the United States for readmission to practice within its iron-clad oath stood in his way, and he accompanied his application with an argument intended to show the unconstitutionality of that requirement. In December, 1867, the Supreme Court rendered a decision agreeing in three of the four points urged by Mr. Garland. Meantime the statesman who denied the seat in the United States Senate to which the Legislature of Arkansas had elected him.

He was elected Governor of his State in the year 1874, without opposition, and, after giving an administration characterized by wonderful ability, was again elected to the Senate. On March 4, 1877, he was sworn in as Senator Garland, and the second time six years after.

Garland ranks with our greatest lawyers and statesmen. He is a man of a playful and affectionate disposition. It is happiness to be honored and revered for his abilities, and loved for his childlike naturalness and other amiable qualities. He is a tremendous warrior, and receives with the joyful abandon of the school-boy.

MRS. JAMES RUSSELL LOWELL, wife of the American Minister, died in London on Thursday last.

GOVERNOR KNOTT will deliver an address to the pupils of the Logan Female College on the 3d of June.

SOME smart fellow has predicted that four months after Cleveland's inauguration every national bank in the country would be closed.

It has turned out that the world's concern on Gen. Grant's tongue is nothing more than an ordinary ulceration, caused by excessive smoking.

THE House by its vote defeated the bill for putting Gen. Grant on the retired list of army officers and thus making his declining years comfortable.

WHEN Mr. Carlisle took his chair last week in the House, after a long spell of sickness, he was greeted with a round of applause, the most flattering testimonial ever paid any man in Congress.

THE Louisville Commercial accuses Gov. Knott of trying to doctor the next Legislature so that he may be elected as United States Senator, despite the fact that it is not the next Legislature's place to elect a Senator.

The crowd at Washington on the 11th of March will be the largest ever there. Not a room can be procured at any of the leading hotels.

THREE thousand unemployed laborers made a demonstration in London last week, demanding relief and cursing the Ministry. For a while they resisted and overcame the police, but were finally dispersed. It is estimated that there are 75,000 men and women out of work in New York City, and in distress. Over-production is said to be the cause.

R. Y. THOMAS, Jr., will probably have a clear field for the Democratic nomination as a candidate to represent Muhlenberg county in the coming Legislature. John Allison has agreed to withdraw as a contestant. Perhaps for charity's sake the good people of Muhlenberg ought to give young Thomas the place he is so anxiously and undividedly seeking.

Let's try a new plan throughout the state—send fools to the asylum instead of the legislature.—*Berea*.

It is good for us sometimes to suffer contradiction, and to be badly or parsimoniously used, even when we do our best. —Thomas A. Kempis.

THE Louisville Commercial thus properly criticizes the wind-up of St. John's Louisville speech:

Our buoyant atmosphere apparently made Gen. St. John think that he was way down South in Dixie. He ought to read the history of his country. There were three freemen of Kentucky in the Union army to every one that was in the Confederate army without counting the freemen. Kentucky did not secede, because she did not want to secede.

THE memory of Washington is still fresh and verdant, the hand he gathered still lives; but his fabled helmet has sunk into oblivion.

Many a time and oft we surmise it has in these late days turned over in its kitchen-midden, convulsively and helplessly, as a protest against the usurpation of Old Nick in the society, trade, politics, religious even, and fourth estate of its master's foster-offspring.

TO-DAY we have a Democrat, amid the huzzas of a multitude, the blare of trumpets, the gleam and clank of armed troops, the floating of flags and the boom of cannon, will be placed as President over these United States. How absurd was even a hint of this to our, now underhanded, then haughty, Republican brethren a year ago! This is a strange mind-baffled. The breath of popular will goes where it lists. The ins shall be out, and the ons shall be in.

OF the things which man can do or make here below, by far the most momentous, wonderful, and worthy, are the things we call Books! Those poor bits of rag-paper with black ink on them, from the daily newspaper to the sacred Hebrew Book, what are they not doing?—Thomas Carlyle.

If the parts of our grievous summing up perhaps the Lord will now be merciful unto us and suffer us to have a stanch in our nostrils, but which shall be an honor to the State by its faithful service. Kentucky has contributed more than her share of material for the future political drama.

THE British troops in the Sudan, the main object of their expedition no longer being possible, have been ordered to retreat to Korti. Gen. Wolseley will probably go to Cairo where he can be more in communication with the Government. El Mahdi's forces number more than 60,000, and are increasing constantly on account of the Prophet's capture of Khartoum. The Conservatives in Parliament have moved for a vote of censure against the Government, the decision of which rests upon the way the Irish party will go.

THE Harper's Weekly cannot be entirely wrong in this:

"Mr. Cleveland will probably have a good deal of influence with his administration. Among the distinguished men of his party there are none of more positive character, or clearer comprehension of the political situation, or unbending resolution, than he. His firmness will be unquestionably severely tested, like that of every President. But his temperament is of the kind that the office of President especially requires, and he knows by experience the value of definite methods in the discharge of executive duty. One thing at least is clear: during his term, if he lives, Mr. Cleveland will be President."

GEN. SIR HENBERT STEWART, who was wounded at the battle of Abu Klea, died on the 16th at Gakdul Wels, where he had been removed. His death depresses the entire British army. Lord Wolseley, advising the Government of his death, said: "No braver soldier or more brilliant leader ever wore the Queen's uniform. England can ill afford to lose this young General." The Egyptian campaign had been deplorably costly to England; three valuable leaders have so far been killed, not to mention the several subordinate officers and the common soldiers, the pick of her army.

NEW YORK's new Senator, Wm. M. Evarts, at the reception given to him by the Union League Club, waved the bloody shirt vigorously. He said that the party that had now laid its hand upon the power of this Government was in heart, in substance, in purpose and in power, very much the same party that it was in 1860. "It comes," he went on to say, "from the great body and strength of the Southern States and a contingent and fragmentary party in the great States lying north of the old line. Indeed, gentlemen, with that qualification which I now make of our political differences, the Democratic party now brought into power brings us once more to the position of affairs and complexion of sections as we found them in 1860." Mr. Evarts asserts this notwithstanding

Cleveland out of nearly five million votes received less than two millions from the South. The States of New York, Indiana, New Jersey and Connecticut are not contingent and fragmentary; neither are Illinois, Michigan, Wisconsin and Iowa, which gave greatly reduced Republican majorities in November. On the other hand, nearly all the Southern States gave small and reduced majorities. Mr. Evarts is not so great a man as we thought he was.

"Going to the seaside this year? No, I am not well enough."—Ex.

Let's try a new plan throughout the state—send fools to the asylum instead of the legislature.—*Berea*.

It is good for us sometimes to suffer contradiction, and to be badly or parsimoniously used, even when we do our best. —Thomas A. Kempis.

"Mein Fräulein, I love you with mad ardor. A volcano rages in my breast and threatens!"—Fräulein. "Ah! sir, then pray hold your crater!"—Duchess.

Judge: "How old are you?" Witness (a lady): "Thirty." Judge: "Thirty! I have heard you give the same age in this court for the last three years!" Witness: "Yes, I am not one of the persons who say one thing to day and another to-morrow?" Mr. Emerson said of Carlyle: "He is a trip hammer with an Aeolian attachment."

After the applause had subsided, Gov. St. John addressed the audience. We give the substance of his remarks. He said that Mr. Bain had a sound mind, but got off occasionally. Bain said St. John in the late campaign took the collateral consequences. St. John said the facts were, another party got the collateral and he got the consequences. You would never know it, but the party was brought to face a great wrong it will be to the truth of it. Ah, you may burn me in effigy; you can't burn my principles. [Applause.] If Cleveland goes wrong we will beat him. I want to tell my Republican friends that the party's treachery to Judge Folger beat Mr. Blaine. I tell you that the real reason Blaine was beaten is because when the party was brought to face a great wrong it will be to the truth of it. Ah, you may burn me in effigy; you can't burn my principles. [Applause.] I was in the South during slavery; there was no such bulldozing as I have had in the North!"

After telling some anecdotes and incidents, the speaker concluded as follows:

"Freemen of Kentucky, you were the gray and faced the leaden hail; I wore the blue and fought you well. Will you stand by your homes or wear the collar of a party? The saloon party will go down and we will build on its ruins. I ask you to help save my son; I will help save yours. Let us do our duty; this will give results!" [Applause.]

St. John at Louisville.

Last Monday night week, in spite of cold weather and Mardi Gras carnival, a goodly audience greeted ex-Governor John P. St. John at the Masonic Temple in Louisville. Theo. W. Bain introduced him as the orator of the evening in his usual happy way. He alluded to him as the most noted Temperance man in the United States. He said he would make a slight personal reference. He had been in almost every county in Kansas, had been in many of the houses of Kansas, and he stood there to say that St. John had a place in the hearts of that people such as John C. Breckinridge had in Kentucky. At Orlatoo, where he lives, when he came away the largest hall was packed with people testifying in resolutions of regard. The had had no saloon for nine years, and no number for nine years. Kansas gained 500,000 people and \$50,000,000 taxable property by prohibition. Prohibition was enforced. Nineteen saloon-keepers were in jail at Topeka. A Missouri judge had written into that he had no saloons in his town; had not had for seven years, and had no number for seven years.

"The last charge is that I beat Blaine. I thought Cleveland did this. They say so much about my beating Blaine that I ought to come to Cleveland and get the Republicans to sweep me in. [Laughter.] I can tell you who beat Blaine. Ali, there was a Conkling, a Beecher, a Talmage, a Cutler, a Crosby, a Seeley, a Hepworth, a Herkier, a Johnson, Col. Bain called out Burchard. Yes, the three R's did this. [Laughter.]

A sageapre remarked that the principal branch of education in his school was the willow branch.

Does death end all? Well, no; but Wilder's Stomach Bitters ends all Indigestion, Consumption and Biliousness.

Happiness is a perfume that one cannot smell over another without a few drops falling on one's self.

A young man is made better by a sister's love and Fever and Ague are cured by Wilder's Chill Tonic, also malacca and peruvian disorders.

To rise early requires quickness of vision; it is one of those subjects which admit of no turning over.

Neither mental nor physical labor can be accomplished satisfactorily unless the system is in order. When you feel tired, languid, wearied without exertion, the mind should set to, and requiring great mental effort, you can rest assured that your Liver is not acting properly, and that nature requires assistance to help throw off impurities. There is no remedy that will accomplish this so mildly and yet effectively as Pecky Ash Bitters. A trial will satisfy you of its merits.

Acknowledging that we have been wrong is only showing that we are wiser to-day than we were yesterday.

Never wait for a thing to turn up, God turn it up yourself. It takes less time, and sooner to be done.

Wind up your conduct, like your watch, once every day; examine minutely whether you are "fast" or "slow."

I had suffered from Catarrh for ten years; the pain would be so severe that I was obliged to send for a doctor. I had entirely lost sense of smell. Ely's Cream Balsm has worked a miracle.—C. S. HALEY, Binghampton, N. Y.

A Compliment to Mrs. McDonald.

"Wife, come with me. I desire to present you to the most beautiful woman in the world." These are the words that Matthew Arnold is said to have directed to his wife after he had finished his lecture in Indianapolis. Naturally enough she asked, "Who?" He replied, "The wife of Senator McDonald." As she had left the hall, an introduction was out of the question, but the critic is said to have remarked: "So spiritual a creature of transcendent beauty, so fine a specimen of lovely womanhood, I never met before." Whether or not this high praise was deserved the reader may judge from a description of the lady. "Mrs. Joseph E. McDonald," says the Indianapolis correspondent of the Sun, "at that period of woman life when a man may plausibly adore the elevating memory of a sainted mother in her beauty. On her soft cheek there is the delicate lustre of the open rose as well as a glow of girlish strength. Surmounting a brow elegantly moulded is a vast wealth of hair, silken in its softness—not gray, but white as the snow drift. Fair lines that Johnson might characterize as beauty marks chasten and contribute to an expression that Raphael would surely have loved to paint. Where Matthew Arnold is cited as authority on a subject, even if sacred, so full of poetry, a correspondent certainly has license to note the exquisite blending of girlhood and grandmotherhood in one glorious presence, though he may acknowledge that to describe with anything like justice lies beyond his possibilities!"—*Times*.

TRYING TO PLEASE.

Nothing contributes more certainty to the animal spirits than benevolence. Servants and common people are always about you; make moderate attempts to please everybody and the effort will insensibly lead you to a more happy state of mind. Pleasure is very reflective, and if you give it you will feel it. The pleasure you give by kindness of manner returns to you, and often with compound interest. The receipt for cheerfulness is not to have one motive only in the day for living, but a number of little motives; a man who from the time he is till bed-time conducts himself like a gentleman, who throws some little condescension into his manner to inferiors, and who is always contriving to soften the distance between himself and the poor and ignorant, is always improving his animal spirits, and adding to his happiness. I recommend lights as a great improver of animal spirits. How is it possible to be happy with two tallow candles unsooted? You may be virtuous and wise and good, but two candles will not do for animal spirits. Every night the room in which I sit is lighted up like a town after a great naval victory, and in this glorious galaxy, and with a blazing fire, it is scarcely possible to be low-spirited, a thousand pleasing images spring up in the mind, and I can see the little blue demons scampering by like parish boys pursued by the beadle.

THE OLDEST CITY IN THE WORLD.

Hamasus is the oldest city in the world. Tyre and Sidon have perished: Baal is a ruin; Palmyra is buried in a desert; Nineveh and Babylon have disappeared from the Tigris and the Euphrates. Hamasus remains, it was before the days of Abraham—a center of trade and travel, an isle of verdure in the desert, "a presidential capital" with martial and sacred associations extending through thirty centuries. It was near Hamasus that Son of Tarsus saw the light above the brightness of the sun; the street, which is called Strait, in which it was sold he passed, still runs through the city. The caravan comes and goes as it did thousands of years ago; there is still the sheik, the ass, and the water-wheel; the merchants of the Ephrates and the Mediterranean still occupied the streets "with the multitude of their wares." The city which Mohammed surveyed from a neighboring height, and was afraid to enter, "because it was given to have but one paradise, and for his part he was resolved not to have it in this world," is to day what Julian called the "Eye of the East," as it was in the time of Isaiah, "the head of Syria."

From Hamasus came the damask, the blue plumb, and the delicious apricot of Portugal, called damasco; damask, our beautiful fabric of cotton and silk, with vines and flowers raised upon a smooth, bright ground; the damask rose, introduced into England in the time of Henry VIII; the damasked blade, so famous the world over for its keen edge and wonderful elasticity, the secret of whose manufacture was lost when Tamerlane carried the artist into Persia. It is still a city of flowers and bright waters: the streams of Lebanon still murmur and sparkle in the wilderness of the Syrian gardens.—*Ex.*

When persons have faintly lay them down with the head as low as possible; loosen the clothing; keep back crawling; that would interfere with plenty of fresh air; sprinkle water over the face; apply hartsorn to the nose, and if too long in recovering consciousness place heated cloths or plates over the stomach.

Keep the child warm, so that sweating may be induced.

A Model Farm.

A writer gives the following as his method of managing his 100 acre farm: "My farm contains about one hundred acres of farming land, most of which is limestone soil, the balance sandy loam. I have it fenced in four equal parts, as nearly as possible. For convenience, at the corner where they all join, I have a good well arranged to furnish stock water for each field. I manage to keep fifty acres in cultivation, fifty in clover, each year as follows:—twenty-five in corn, twenty-five in wheat. When the corn is cut off I seed this field to wheat and the following spring to clover. I am to take a crop of corn every two years; and I find this is as long as clover should stand to be profitable. By this method I manage to keep the land in a high state of cultivation without the use of commercial fertilizers. I raise stock enough to eat up all the surplus corn, hay, etc. I stack the straw and feed around it and toward spring I throw it down so the stock can tramp it down. In this condition it rots much faster and is ready to haul out sooner. This manner I spread in the poorest places when I have leisure and it is good husbanding. By doing this I keep nearly everything on the farm except the surplus wheat, which I market as soon as threshed, while it is in the sack. This saves a large per cent. of shrinkage, besides extra handling, and you have the use of your money. Any field I have will bring a good crop. I always have clover sod to put in corn that has lain two years, and it takes no longer and is not so much expense to farm good land as it is poor land. The pay is sure, besides the satisfaction of seeing your crops in a thriving condition and promising a good reward."—*Western Herald*.

Woden, from which comes Wednesday, was a valiant prince among the Saxons. His image was prayed to for victory.

Thor, from which comes Thursday is seated in a bed, with twelves stars over his head, holding a scepter in his hand.

Frija, from whence we have Friday, is represented with a drawn sword in his right hand and a bow in his left.

HE'D KILL THE OX.

A good story is told of a good den who laid down the law at a town meeting in western Massachusetts, held to discuss the running of trains on Sunday. The first den object, the Lord, said, "always blessed this state when her people remembered the Sabbath day to keep it holy. And what says the Scripture? 'Six days shalt thou labor and do all thou hast to do, the seventh thou shalt rest.'"

The second den arose to say a word for a liberal construction of the commandment in view of the public needs in the matter of Sunday travel. "I ask the den who has just spoken," said he, "to remember that our Lord on one occasion said that if an ox fall in the pit on Sunday it was right to pull him out. 'Well, I record,' rejoined the first den, "that I know all about what our Lord said about the ox and the pit, but if the same ox fall into the pit every Sunday I'd either kill the ox or pull him out."

HEALTH HINTS.

When a splinter in the eye cannot be removed, bathe in cold water and bandage loosely, so as to keep the eye as quiet as possible until the surgeon arrives.

When a dish-knob has entered any part of the body cut off the line, the off the flattened end and pass the hook on through the flesh as you would a needle in sewing.

In frost bites, use gentle friction in a warm room, using enough cold water to prevent too rapid reaction and consequent pain in the affected part. If very severe a physician should be called, as gangrene may follow.

Children are apt to show up their noses small bodies of different sorts, which may cause serious trouble unless soon removed. This may be affected by vigorously blowing the nose or by repeated squeezing, produced by snuff or by tickling the nose with a feather. If these fail a hairpin may be carefully tried.

When persons have faintly lay them down with the head as low as possible; loosen the clothing; keep back crawling; that would interfere with plenty of fresh air; sprinkle water over the face; apply hartsorn to the nose, and if too long in recovering consciousness place heated cloths or plates over the stomach.
